Dear Ms. Rasmussen:

As president of (Institution Name), I write to express my interest in joining Florida Campus Compact and to indicate my commitment to providing assistance and leadership to the mission of FL|CC.

(Institution name) has a long history of encouraging civic responsibility in its student body and encouraging students to express those values through community service. As a participating president, I will encourage the faculty, staff, and students of (Institution name) to initiate and to participate in programs and projects, which foster public and community service. In my opinion, Florida Campus Compact will provide excellent opportunities for participating institutions and for the state as a whole.

I look forward to becoming a part of the state and national effort to articulate the importance of civic responsibility as an outcome of higher education.

Sincerely,

John C. Service
President
